

YES MEANS TEST™

Why Get Tested?

You can pick up an STD, like chlamydia, no matter how you're hooking up. Yup, vaginal, oral or anal sex can spread STDs. Getting tested is a part of staying healthy.

**SEXUALLY ACTIVE PEOPLE
GET AN STD BY AGE 25**

Statistically, that's you or one of your friends. It's more common than you'd think.

Ready to say YES to TEST?

Yes or no, sex is our choice. But, the facts are clear.
